A GREAT CONTEST

4,129 AT SUNDAY SCHOOL IN ATLANTA AS RESULT.

IT BREAKS THE RECORD

Dr. Bricker's Church Entered Into Friendly Rivalry With Astonishing Results—Might Help Here.

Probably the most wonderful Sunday school rally held occurred last Sunday at Atlanta, Ga., when the combined hosts of the First Christian and Second Baptist Sunday schools gathered at the state capital on Sunday morning and moved in one gigantic procession, seven thousand strong, to the auditorium armory for one of the historic mass meetings in the history of America.

"Such a display of fellowship," says the Atlanta Constitution, "by a vast concourse of people belonging to two hotly contesting churches of two separate denominations is unparalleled but in addition to this, living up to her record for pinnacle of success in everything undertaken, Atlanta broke the world's Sunday school attendance record."

There were 4,129 souls present at the roll call in the First Christian Sunday school by careful detailed count. This is pronounced the biggest Sunday school in the world, experts, declaring that the previous record of about 2,800 was held by Glasgow, Scotland. The Baptist had 2,190 responsive to roll call.

This great Sunday school gathering will be of personal interest to Maryville people because a former pastor of the First Christian church of this city, Rev. L. O. Bricker, is the leader of the contest. After the immense throng had gathered in the Auditorium armory for the great song service and short sermon-addresses by the two pastors, Dr. Bricker and Dr. John E. White, the great throng of people greeted them with resounding applause.

The contest began in February and will close Sunday, May 11. It was started by a challenge made by Dr. Bricker's Bible school to the Second Baptist church of that city, the pastor of which is a great personal friend of Dr. Bricker. The contest has proved a great stimulus to the general Sunday school work in that city and a general spiritualistic awakening has been the result. The officers of the two Sunday schools have banqueted each other twice since the contest began, and the finest spirit prevailed, as each has found how they have gained in their work for each other against each other.

Atlanta's papers say that the Sunday school attendance of Atlanta was not as great as it should be in accordance with the membership of the churches and Sunday school workers have often been puzzled to know what to do to stir up interest. The contest now in progress has solved the question.

Why would not a contest of this kind be a good thing to stir up enthusiasm for Sunday school work in Maryville and to increase the already good feeling that exists between the various churches?

THE POLES FOR NORMAL.

The Two White Way Poles With Lights in Front of Empire to Be Used by Normal.

The Normal will use the two white way poles and lights that are now in front of the Empire theater. These poles will be placed near the Normal building, and the lights will be turned on those nights when they are holding entertainments in that building.

Colbert Was Selected.

The state board of education Wednesday selected Dean George H. Colbert of the Normal as a member of the Nodaway county textbook commission. Mr. Colbert succeeds himself. The two other members of the commission are County Superintendent Oakerson and Superintendent C. A. Hawkins.

GIVES HIS SALARY.

Rev. H. F. Ritz and His Church Members at Anaconda, Mont., Paying Off Church Debts.

Rev. H. F. Ritz of Anaconda, Mont., the former pastor of the Maryville Christian church and the members of the Christian church of that city of which he is pastor, are making one of the most remarkable struggles to pay off the church debt that has been recorded for some time. An article in the Anaconda Standard of April 23, says that the pastor, Rev. Ritz, has worked without salary since a year ago March just past, turning the full amount into the debt fund. He is working six days each week for the support of his family and carried on the church work at the same time. He labored first as a helper to a boiler maker and then as a machinist and finally has been promoted to a position in the office of the smelter. He has refused to take a vacation until the debt of \$4,000 was lifted and it is probably that some time after the first of July, he will take a well earned rest.

The record this church membership has made in paying off its debt, is remarkable because of the manner in which the work was accomplished. There was no noise or fuss of any kind. Rev. Ritz simply turned his salary into the fund and the members of the congregation agreed to give their per centage of their earnings, many of them having turned 10 per cent of their income into the debt fund, while some even contributed a larger portion. Business men, laborers, clerks and school teachers all entered into the arrangement and a loyal Aid Society also assisted. The work of caring for the church was also accomplished without a cent, members of the congregation taking turn at that work, and the organist also worked without pay.

The copy of the Anaconda Standard from which the Democrat-Forum gave this news was sent to Rev. A. C. Gann of this city.

AN AWFUL ACCIDENT.

Hopkins Farmer Literally Tears Hand from Wrist to Save Arm from Being Crushed.

R. B. Kent, who resides on a farm some five miles east of Hopkins, met with an accident last Sunday evening that will maim him for the balance of his life.

He had just started to grind feed on a sweep grinder when something went wrong with the cogs and in reaching up to adjust the machine, his right arm was caught in the machinery.

He realized at once that it was too late to try to stop the team or machinery, the cogs in an instant having cut the skin around his wrist as smoothly as if it had been done with a knife, so in order to save his arm, he, by his own strength, tore the arm from his hand near the wrist.

By this time, assistance arrived and he was taken to the house and Dr. D. A. Sargent telephoned for.

Realizing the seriousness of the accident Dr. Sargent summoned Dr. Kirk who accompanied him to the Kent home.

Dr. Kirk administered the chloroform and Dr. Sargent at once amputated the lower part of the arm some two or three inches above the wrist, and the patient is now resting as well as could be expected under the circumstances.

He is cheerful, and barring any complications that might arise, he will soon be able to be up and around again.

Mr. Kent is a great rustler and his many friends deeply deplore the accident.

He had but recently bought his farm, was getting it nicely stocked and would have soon been on "easy street."

It was his intention to put in and tend seventy acres of corn this season all by himself, but of course it will be several months before he is able to do any work.

Dr. Sargent visited Mr. Kent this forenoon and reports him doing nicely, with no fever and the arm not badly swollen. He sat up this morning and ate his breakfast and thinks he will be able to come to Hopkins by next Saturday.—Hopkins Journal.

Miss Lena Sturm of Clyde returned home Thursday from a short visit with her aunt, Mrs. Aaron Felix.

Mrs. G. Villing of Conception was shopping in Maryville Thursday.

HELD LAST TERM.

Judge Ellison Presided at the Last Term of Circuit Court for Holt County.

Judge W. C. Ellison returned Wednesday night from Oregon, where he has been holding circuit court for the past nine days. This was the last term of court for Judge Ellison in Holt county, as that county is to be added to the fifth judicial circuit, according to a bill passed by the recent legislature. The bill will become a law in June.

Judge Ellison's circuit will be composed of Nodaway, Atchison, Worth and Gentry counties.

The June term of circuit court will be held in Nodaway county, as the bill will not become a law until after that term of court is commenced. However, there will be a term of circuit court in September under the new law. The other terms will be in February and May.

FELL FROM SOME PLANET?

A Huge Rock Discovered on Fleming Farm, Probably Had Fallen from the Heavens.

While walking over his farm north of Hopkins the other day, S. A. Fleming discovered a huge rock that was partially buried in the ground, and upon further investigation, found that the miniature boulder had fallen from the heavens as its path could be traced by the limbs of a tree through which it had fallen and injured the branches, says the Journal.

The rock weighed about twenty pounds and is of an entirely different formation of any rock found in this immediate vicinity or in this country, for that matter, which leads Mr. Fleming to believe that it fell direct from some other planet. The rock, too, was evidently hot when it fell, as it was broken into five different pieces when found, the breaks no doubt being caused by the stone rapidly cooling when it struck the damp soil of Pious Ridge.

HE WILL RESIGN

JUNE FIRST FIXED AS DATE OF RETIREMENT.

DID BOSS SEE MAJOR?

Two Newly Elected Justices Resign and after Trip to St. Joseph J. W. Morris Says He Will Also.

The county court seems to have a hard time about justices of the peace of Polk township and especially to prevent "Boss" J. W. Morris from having that office. On Thursday, two justices of peace of this township, who had qualified and received their commissions, presented their resignation to the county court to take effect at once. They were J. E. Melvin and Gill Campbell.

The first of the week, the court appointed John S. Miller of "Ohio" to take the place made vacant by Amos Sprecher, who declined to qualify as justice of peace, being elected at the township election. At that time the court thought that everything was settled so far as justices of peace of Polk and so far as "Boss" Morris was concerned, but now there are two more vacancies to fill.

So far as the court is concerned now, they will not appoint "Boss" Morris to that office, but unless the two vacancies are filled, it is the opinion of many that Morris will hold that office. It is intimated that Morris will refuse to give out the books of his office even if all of the vacancies are filled.

"Boss" Morris was in St. Joseph Wednesday, he having heard that Governor Major was to be in that city. But the governor didn't show up.

Many people are in favor of Mr. Morris holding the justice of peace office, as no one seems to want that office.

"Boss" Morris returned Thursday noon from St. Joseph and in talking to several of his friends, said he would resign as justice of peace about June 1 so far as he knows at the present time. It is intimated that Mr. Morris will probably go to St. Joseph.

GEORGE R. CARTER.

Ex-Governor of Hawaii Says Free Sugar Will Kill That Country.

Mr. Carter in a pessimistic address to the merchants of Honolulu declared that the free sugar provision in the new tariff bill, if carried into effect, will prove the death blow of Hawaii within three years. He said that sugar provides 85 per cent of the money expended by the local government and educates 7,000 children.

WAS MUCH TAXED

BOTH HOLT AND NODAWAY COUNTIES ASSESSED HIM.

THE RIVER THE CAUSE

Erratic Wandering of the Nodaway Caused John McDowell to Pay Double Taxes on Real Estate.

John McDowell, living near Graham, has been paying for a few years taxes in Nodaway and Holt counties on the same piece of land, containing five and a half acres. Thursday, County Treasurer Tilson and the members of the county court received word about this matter from Mr. McDowell, who wants his assessment taken off of the tax books of Nodaway.

Mr. McDowell in writing about it, says that when he purchased the land, the five and one-half acres, according to the original survey, was in Nodaway county. He paid his taxes to Nodaway county in 1904-05-06-07, but in 1908, a suit was instituted against him in Holt county for taxes for those years on the five and a half acres. Holt won in that suit, so he paid his taxes for those years to that county. Since the time of the suit, he has been paying his taxes to Holt. Now Mr. McDowell wants to know whether he will have to pay taxes to this county. He says that it don't seem right to pay taxes to two counties on the same piece of land. The county court will investigate the matter.

The change in the land from Nodaway to Holt county was made by the change of the Nodaway river, which is the line between the two counties.

MORE P. M. CIVIL SERVICE.

Second and Third Class Postmasters to Be Included, According to Dispatch from Capitol.

Postmaster General Burleson at Washington announced Wednesday that it was the purpose of President Wilson and himself to take into the classified service, probably this year, all postmasters of the second and third classes. Fourth class officers already have been covered by executive order.

After a conference with President Wilson, Postmaster General Burleson announced that an executive order would be issued requiring that all fourth class postmasters now in office, or candidates for prospective appointment should be subjected to a competitive examination to determine their fitness for the office.

The Postmaster General issued a statement explaining the purpose of the new executive order, declaring that President Taft's action in placing "a great horde of persons" in the classified service was not in conformity with the spirit of the civil service, as there were no tests to determine the merits of the applicants.

The new order, which substantially amends President Taft's executive order, retains in the classified service all fourth class postmasters, but specifically requires a competitive examination and a selection by postoffice inspectors from among the first three eligible applicants. The order places the age limit for appointees at 65 years.

Mr. Burleson, in his discussion of the situation, indicates that the Wilson administration desires to take the fourth class postmasters out of politics, but points out that Democrats as well as Republicans will have an opportunity under competitive examinations to show fitness.

A FREAK OF NATURE.

A Pup With Two Bodies, Eight Feet and Legs and One Head on Exhibition at Hopkins.

Fred Herbert has in alcohol at the Bowman drug store in Hopkins a pup with two bodies, eight feet and legs, and one head, brought to the store by Dr. Al Reeder from the Walter Trumbo farm. The pup lived for several hours after it was born and is certainly quite a curiosity.—Hopkins Journal.

The Kicker.

When Bill was born the first thing he did
Was to kick; and Bill never entirely
got rid
Of that trait—all the time that Bill
was a kid
He kicked about things.
He kicked for the love of it; kicked
with a will;
He kicked with precision and con-
summate skill;
Whenever a creditor mailed him a bill,
William would kick.
He kicked when improvements came
to the place,
With mulish enjoyment and asinine
grace—
He loved to hit progress a kick in the
face;
He'd his heart in the work.
At last the community wearied of him;
Tied a rope round his neck, threw it
over a limb,
And hoisted him up with vigor and
vim;
And, as usual, Bill kicked.

St. Peter regarded Bill's ghost with
a frown;
"That way, if you please—take the car
going down!
If I did let you in and give you a crown
And a robe and a harp and a nice pair
of wings,
Inside of a week, you'd kick about
things."
And William, he kicked.

THE STEINHAUSER FUNERAL.

Services Held Thursday Morning at
New Engelberg Abbey Church—
Was the Mother of Eleven.

Funeral services for Mrs. William
Steinhauser, who died Monday night
at her home six and one-half miles
southeast of Clyde, were held Thurs-
day morning at 10:30 o'clock at New
Engelberg Abbey church, Conception,
conducted by the Rev. Father Placidus.
Burial took place in St. Columba's
cemetery. The pall bearers were Leo
King, Roy King, James Brady, Clem
Meyer, William Merrigan and John
Allen.

Mrs. Steinhauser's maiden name was
Mary Bloomeke, daughter of John and
Elizabeth Bloomeke, and she was 38
years old at the time of her death.
Her father came to Nodaway county
from Ohio when she was a babe, to
start a home for his wife and child,
who were to follow him at a certain
time. Mr. Bloomeke had been serious-
ly injured by a circular saw some time
previous to this and it was thought
that the trip west would benefit him.
He made the trip on horseback and
the "constant jar of the ride opened
his wound afresh and by the time he
reached the vicinity of Conception,
where he and other friends had come
to invest in land, he was in a danger-
ous condition and died soon after he
reached his destination.

Telegraph and mail service were so
slow then that word could not be
sent the young mother before she
started with her baby to join her hus-
band and when she reached Concep-
tion the news of her husband's death
waited her. She returned to Ohio and
was later married to George Kimmit,
who soon came to Nodaway county
and located in Conception vicinity,
where Mary Bloomeke grew to woman-
hood and was married November 4,
1891, to William Steinhauser.

Mrs. Steinhauser was the mother of
eleven children, eight of whom sur-
vive with their father. They are Mar-
garet, Anthony J., Michael W., William
J., Stephenie M., Marie E., Leonard G.
and Agatha.

Sorority Girl's Announcement.

The Sigma Delta Chi sorority met
Wednesday evening with Mrs. Fred
Lewis, formerly Miss Estella Mason,
the sorority's most recent bride, at her
home on East Fourth street. After
the usual business session a charm-
ingly delightful social season was pre-
cipitated by the reading of a letter re-
ceived that day by the hostess from
Miss Emma Kildow, who is at Tucson,
Ariz., for a few months. Mrs. Lewis
asked Miss Mary Ogden to read the
letter to her guests while she attended
to preparations for luncheon. And the
extraordinary news the letter contain-
ed was what "started everything," al-
though every girl there had been al-
most hourly expecting it for months,
but when it did come, it was just as
thrilling and surprising as though they
had not known a thing about it, be-
cause of the manner of its coming.
They thought the hostess might have
something of interest to tell them
some time soon, but they had no idea
that it would come out in a letter from
far away, about one of their girls at
home, so when Miss Kildow wrote that
a member of their own sorority was
to be married the last of May to
Harvey Neal Meacham of San Bernar-
dino, Calif.—why, everybody was sur-
prised and the news furnished
entertainment for the rest of the eve-
ning and the bride-to-be received the
happiest wishes from everyone, for
she is one of the favorite members.
The members present were Miss
Stockton, Misses Jeanetta Cottrell,
Jane Hinote, Phyllis Saylor, Mary Og-
den, Golda Airy, Lois Halley, Grace
Langan, Hettie Anthony, LaRue Kemp,

Playgrounds for Maitland.

At the last meeting of the Maitland
city council Mrs. George McNaul and
Mrs. Frank Bloyer, representing the
Civic League of that town, asked the
co-operation of the town in establish-
ing playgrounds at various points. The
league has arranged with D. Ward
King for the use of a block of several
lots on the north side and are taking
steps to obtain other grounds. The
council promised to assist and there is
certainty that the improvement will be
accomplished.

Position of Advantage.

(From The Washington Star).
"How do you come to be sent to
Congress?" said the inquisitive person.
"Well," replied Senator Sorghum,
"some of my most influential constitu-
ents concluded I could do better work
for them on the floor than I could as
a regular lobbyist."

Timely Caution.

(From The Kansas City Journal).
"Loan me five, old man, if I live un-
til next week I'll pay you back."
"Here it is. But if you fail to sur-
vive the time limit, don't try to stick
me for the funeral expenses."

POSTMASTERS MUST PASS EXAMINATIONS

President Orders Civil Service
Test for Fifty Thousand Postmasters.

Washington, May 8.—All fourth class postoffices, except those paying less than \$180 a year, were thrown open to competitive examination by an executive order issued by President Wilson. These positions are retained in the classified service, but about 50,000 incumbents, who were "covered" into the classified service by executive orders of previous administrations will have to meet all comers in competitive examinations in order to hold their positions with civil service protection.

In a statement making this order public, Postmaster General Burleson announced that it was the purpose of President Wilson and himself to extend the classified service to include presidential postmasters of the second and third class, probably within a year. This may require legislation by congress, he said.

His plan, which will be laid before the president soon, will provide for qualification test for incumbents and applicants "in keeping with the importance of the offices."

CHARGES WASTE AGAINST ROADS

Meilen Scored by Brandeis Before Interstate Commission.

DIVIDENDS EXCEED EARNINGS.

Boston and Maine and New Haven and Hartford Officials Accused of Suppressing Competition at a "Fearful Cost"—Methods and Policies Dark.

Washington, May 8.—Charges of maladministration, reckless extravagance and undue expansion, induced by a spirit of monopolization and aggrandizement, were made before the interstate commerce commission by Louis D. Brandeis of Boston against the officials of the New York, New Haven and Hartford and the Boston and Maine railroads.

The charges were made in the course of oral arguments submitted to the commission on testimony adduced at the commission's investigation of the operations of the New England railroads recently taken in Boston. Mr. Brandeis said both had suppressed competition at a "fearful cost."

Dividends Exceed Earnings.

"For five out of the last six years the New Haven has been paying in dividends more than it has earned," said he. "It has pursued a policy of concealing from the stockholders and from the public the character of its methods and policies. The Boston and Maine has outstanding \$24,500,000 of short term notes which in natural course it will have to meet during the coming year, and yet it is about to pass its dividend, and it is doubtful whether it can meet its fixed charges. The New Haven's affairs are managed in the same reckless fashion. It has notes to meet within the next eight months amounting to between \$40,000,000 and \$50,000,000. Such management would be condemned in a wild cat mining scheme. Its management has been characterized by recklessness that is appalling."

Replies to Criticism.

The criticism of Mr. Brandeis was met by statements of Charles F. Choate, Jr., personal counsel of President Charles S. Melien of the New Haven, who, while admitting that large prices had been paid for some of the properties constituting the New Haven system, declared the action of the directors already had been justified fully in some instances, and he was certain would be justified in all by time. Expensive improvements, he said, had been made by the roads to meet the demands of the public.

PEABODY FAVORS INCOME TAX

Says, However, That \$4,000 Limit is Entirely Too High.

Omaha, May 8.—Charles A. Peabody, a director of the Union Pacific railway and several large financial institutions in New York, took a stand in favor of the income tax, although he would impose it equally, in an interview he gave to the press. Mr. Peabody has been on a trip to the Pacific coast and was met here and motored about the city by President Mohler. "I do not object to an income tax," said Mr. Peabody. "On the other hand, I believe an income tax is right and just and should be imposed. But it should be imposed on all alike. A tax imposed upon a man simply because he is rich, but which is not imposed upon another who is not so well off, is obviously unjust. "The provisions of the income tax bill now before congress places the tax altogether upon those with an income of \$4,000 or more. That limit necessarily puts the tax on a very few as compared with the entire population of the country. It will be paid very largely by the people of the east. "A tax which is levied upon a single section is not right. It should be levied upon the country as a whole. I believe, of course, there should be a proper limit, because I would not tax the income of a laborer, nor the salary of men who receive a small wage. A \$4,000 limit is entirely too high."

SAYS STEEL COMBINE RUINED JOB PRINTER.

Washington, May 8.—Representative Stanley, chairman of the house committee which investigated the steel trust, urged President Wilson to appoint to a federal position B. S. Kaufman of Coatesville, Pa., a job printer whom Mr. Stanley declared had been ruined because he testified against the steel interests before the committee. Kaufman at the time told the committee he feared retaliation.

Wellington, Kan., May 8.—William Lone Wolf, a graduate of Carlisle, is in jail here, charged with having shot and mortally wounded George Cowen, a neighbor. They previously had quarreled over a baseball game. Lone Wolf is wealthy. He denies the shooting.

REPUBLICANS HOLD UP TARIFF MEASURE

Final Vote Delayed for Day by Parliamentary Maneuver.

Washington, May 8.—After all of the fireworks, preparatory to the passage of the Underwood bill in the house, had been set off, a Republican parliamentary maneuver blocked progress by the Democratic majority and the house was forced to adjourn with the bill still pending.

When the valedictory speeches on the bill had been delivered and crowded floor and galleries were prepared for the final action, Republican Leader Mann replied to Majority Leader Underwood's opposition to a roll call on the Republican amendment proposing a tariff commission, by declaring he would demand the reading of the "enrolled bill."

It was impossible for the enrolling clerk to complete the enrollment of the bill before this afternoon and amid the dissatisfied mutterings of the members, who had waited through the evening in the expectation of a final vote, Representative Underwood moved that the house adjourn until afternoon, when the vote will be taken.

In the closing hours of the session, the ways and means committee amended the income tax section of the bill so as to exempt from its provisions the citizens of Porto Rico and the Philippines.

Party leaders primed for a final political thrust of the tariff debate, hurled their defiance across the chamber on belated amendments, with alternating currents of applause reverberating through the house, the packed galleries frequently joining in the demonstration.

WAR AEROPLANE IS MISSING

American Troops Hunt for Lost Mexican Flying Machine.

FOR USE IN GUAYMAS SIEGE.

Birdmen to Drop High Explosives on Heads of Government Soldiers, Believed to Be Rebel Scheme—Taken in Wagon From Desert Station.

Nogales, Ariz., May 8.—A war aeroplane, designed to assist the Sonora state troops investing Guaymas, is being sought by three detachments of United States cavalry and automobile parties of deputy sheriffs and federal officers. The machine was lost in transit between Tucson, Ariz., and this point, where its passage into Mexico was denied. Still another flying machine is reported smuggled over the border, arriving safely at Ortiz, the base of the state troops operating against the California gulf port.

Shipped From Los Angeles.

The missing aeroplane was shipped from Los Angeles to a desert station twenty miles south of Tucson, where it was delivered to unidentified persons and taken away in a wagon. Since then the military and deputy sheriffs have been unable to locate it.

It is reported that the intention was to fly over the border, the American aviators and mechanics having been already on the ground when the machine arrived. How the second machine was smuggled over is not known.

Planned for Dropping Shells.

It was planned to employ the aeroplanes in besieging Guaymas, where strong federal reinforcements were received last week. It is said that high explosive shells have been secured, which the birdmen could drop over the heads of the government troops. Fighting between Guaymas and Ortiz was not resumed, according to current reports. A strict censorship is being enforced by the state authorities.

BOMB FOUND IN ST. PAUL'S

Suffragettes Try to Blow Up Ancient Cathedral in London.

London, May 8.—An attempt to wreck the ancient St. Paul's cathedral by a bomb is attributed to the militant suffragettes. The verger, who conducts sightseers through the massive edifice, was making his rounds when he heard a ticking sound near the high altar. Upon investigation he found hidden a heavy parcel, done up in brown paper. He immediately placed it in a box and handed it over to the police. The box found a suffragette newspaper wrapped up with the bomb.

This attempt and the placing of two other bombs in other parts of the city made it appear that the militant suffragettes had entered anew on their havoc-working campaign, following the defeat of the woman suffrage bill in the house of commons.

FIRE ALARM BRINGS GUESTS TO WEDDING.

Chicago, May 8.—Truckman William Werner turned in an alarm to enable members of truck company No. 19 to attend his wedding. His companions could not all be relieved of duty to become his guests, so when everything was ready for the ceremony, Werner pulled a box. When the apparatus arrived, Werner explained that the "fire was in his heart," and ushered the firemen into the home of the bride, rubber boots, mackinaws, helmets and all. Half an hour later they were back at the fire station.

Kansans Plan Sociability Tour.

Kansas City, May 8.—A "sociability" tour of motorists, under the auspices of the Kansas State Automobile association, will begin from Kansas City, Kan., tomorrow morning to encourage improvement of the roads along the new Kansas City-Omaha route, said to be one of the most picturesque highways in the Missouri valley. The motorists will stop at fifteen towns, where speeches in support of good roads will be made. They are scheduled to arrive at Omaha, Saturday afternoon.

Man Wounded in Duel Near Paris.

Paris, May 8.—A sword duel, arising out of a quarrel three years ago, was fought between H. C. Berger, son of a Paris deputy, and Georges Breittmayer, both noted fencers. They met on the lawn of the Chateau d'Orly, about seven miles south of Paris. Berger received a serious wound in the right breast.

Irish Home Rule Bill Reintroduced.

London, May 8.—The home rule for Ireland bill was reintroduced in the house of commons by Premier Asquith and read a first time under the standing order of the house, which debars debate. It will come up for second reading on June 25.

Refuses to Grant Raised Rates.

Washington, May 8.—The interstate commerce commission held that proposed advances in freight rates on flax tow and excelsior from St. Paul to Des Moines, Omaha, Kansas City and other points were not justified.

THIS LADY'S GOOD APPETITE

Mrs. Hansen, in a Letter From Mobile, Tells How She Gained It.

Mobile, Ala.—"I suffered for seven years, with womanly trouble," writes Mrs. Sigurd Hansen in a letter from this city. "I felt weak and always had a headache and was always going to the doctor. At last I was operated on, and felt better, but soon I had the same trouble."

My husband asked me to try Cardul. I felt better after the first bottle, and now, I have a good appetite and sleep well. I feel fine, and the doctor tells me I am looking better than he ever saw me."

If you are sick and miserable, and suffer from any of the pains due to womanly trouble—try Cardul.

Cardul is successful because it is composed of ingredients that have been found to act curatively on the womanly constitution.

For more than fifty years, it has been used by women of all ages, with great success. Try it. Your druggist sells it.

A GREAT CONTEST

4,129 AT SUNDAY SCHOOL IN ATLANTA AS RESULT.

IT BREAKS THE RECORD

Dr. Bricker's Church Entered Into Friendly Rivalry With Astonishing Results—Might Help Here.

Probably the most wonderful Sunday school rally held occurred last Sunday at Atlanta, Ga., when the combined hosts of the First Christian and Second Baptist Sunday schools gathered at the state capital on Sunday morning and moved in one gigantic procession, seven thousand strong, to the auditorium armory for one of the historic mass meetings in the history of America.

"Such a display of fellowship," says the Atlanta Constitution, "by a vast concourse of people belonging to two hotly contesting churches of two separate denominations is unparalleled but in addition to this, living up to her record for pinnacle of success in everything undertaken, Atlanta broke the world's Sunday school attendance record."

There were 4,129 souls present at the roll call in the First Christian Sunday school by careful detailed count. This is pronounced the biggest Sunday school in the world, experts, declaring that the previous record of about 2,800 was held by Glasgow, Scotland. The Baptist had 2,190 responsive to roll call."

This great Sunday school gathering will be of personal interest to Maryville people because a former pastor of the First Christian church of this city, Rev. L. O. Bricker, is the leader of the contest. After the immense throng had gathered in the Auditorium armory for the great song service and short sermon-addresses by the two pastors, Dr. Bricker and Dr. John E. White, the great throng of people greeted them with resounding applause.

The contest began in February and will close Sunday, May 11. It was started by a challenge made by Dr. Bricker's Bible school to the Second Baptist church of that city, the pastor of which is a great personal friend of Dr. Bricker. The contest has proved a great stimulus to the general Sunday school work in that city and a general spiritualistic awakening has been the result. The officers of the two Sunday schools have banqueted each other twice since the contest began, and the finest spirit prevailed, as each has found how they have gained in their work for each other against each other.

Atlanta's papers say that the Sunday school attendance of Atlanta was not as great as it should be in accordance with the membership of the churches and Sunday school workers have often been puzzled to know what to do to stir up interest. The contest now in progress has solved the question.

Why would not a contest of this kind be a good thing to stir up enthusiasm for Sunday school work in Maryville and to increase the already good feeling that exists between the various churches?

THE POLES FOR NORMAL.

The Two White Way Poles With Lights in Front of Empire to Be Used by Normal.

The Normal will use the two white way poles and lights that are now in front of the Empire theater. These poles will be placed near the Normal building, and the lights will be turned on those nights when they are holding entertainments in that building.

Colbert Was Selected.

The state board of education Wednesday selected Dean George H. Colbert of the Normal as a member of the Nodaway county textbook commission. Mr. Colbert succeeds himself. The two other members of the commission are County Superintendent Oakerson and Superintendent C. A. Hawkins.

GIVES HIS SALARY.

Rev. H. F. Ritz and His Church Members at Anaconda, Mont., Paying Off Church Debts.

Rev. H. F. Ritz of Anaconda, Mont., the former pastor of the Maryville Christian church and the members of the Christian church of that city of which he is pastor, are making one of the most remarkable struggles to pay off the church debt that has been recorded for some time. An article in the Anaconda Standard of April 23, says that the pastor, Rev. Ritz, has worked without salary since a year ago March just past, turning the full amount into the debt fund. He is working six days each week for the support of his family and carried on the church work at the same time. He labored first as a helper to a boiler maker and then as a machinist and finally has been promoted to a position in the office of the smelter. He has refused to take a vacation until the debt of \$4,000 was lifted and it is probably that some time after the first of July, he will take a well earned rest.

The record this church membership has made in paying off its debt, is remarkable because of the manner in which the work was accomplished. There was no noise or fuss of any kind. Rev. Ritz simply turned his salary into the fund and the members of the congregation agreed to give their per centage of their earnings, many of them having turned 10 per cent of their income into the debt fund, while some even contributed a larger portion. Business men, laborers, clerks and school teachers all entered into the arrangement and a loyal Aid Society also assisted. The work of caring for the church was also accomplished without a cent, members of the congregation taking turn at that work, and the organist also worked without pay.

The copy of the Anaconda Standard from which the Democrat-Forum gave this news was sent to Rev. A. C. Gann of this city.

AN AWFUL ACCIDENT.

Hopkins Farmer Literally Tears Hand from Wrist to Save Arm from Being Crushed.

R. B. Kent, who resides on a farm some five miles east of Hopkins, met with an accident last Sunday evening that will maim him for the balance of his life.

He had just started to grind feed on a sweep grinder when something went wrong with the cogs and in reaching up to adjust the machine, his right arm was caught in the machinery.

He realized at once that it was too late to try to stop the team or machinery, the cogs in an instant having cut the skin around his wrist as smoothly as if it had been done with a knife, so in order to save his arm, he, by his own strength, tore the arm from his hand near the wrist.

By this time, assistance arrived and he was taken to the house and Dr. D. A. Sargent telephoned for.

Realizing the seriousness of the accident Dr. Sargent summoned Dr. Kirk who accompanied him to the Kent home.

Dr. Kirk administered the chloroform and Dr. Sargent at once amputated the lower part of the arm some two or three inches above the wrist, and the patient is now resting as well as could be expected under the circumstances.

He is cheerful, and barring any complications that might arise, he will soon be able to be up and around again.

Mr. Kent is a great rustler and his many friends deeply deplore the accident.

He had but recently bought his farm, was getting it nicely stocked and would have soon been on "easy street."

It was his intention to put in and tend seventy acres of corn this season all by himself, but of course it will be several months before he is able to do any work.

Dr. Sargent visited Mr. Kent this forenoon and reports him doing nicely, with no fever and the arm not badly swollen. He sat up this morning and ate his breakfast and thinks he will be able to come to Hopkins by next Saturday.—Hopkins Journal.

Mrs. G. Villing of Conception was shopping in Maryville Thursday.

The county court selected Wednesday the petit jury for the June term of circuit court. The following were chosen:

Hook of Independence, J. B. Horton of Jackson, Phil Gowney and Key Farnan of Jefferson, Newell Staples and Harvey Walters of Lincoln, Wm. Grigsby of Monroe, James Vert and John Plummer of Nodaway, Frank Goodspeed, Albert Carr, Charles Garrett and J. L. Scott of Polk, J. R. Carmichael of Union, Wm. Beggs of Washington, Charles Armstrong of White Cloud.

HELD LAST TERM.

Judge Ellison Presided at the Last Term of Circuit Court for Holt County.

Judge W. C. Ellison returned Wednesday night from Oregon, where he has been holding circuit court for the past nine days. This was the last term of court for Judge Ellison in Holt county, as that county is to be added to the fifth judicial circuit, according to a bill passed by the recent legislature. The bill will become a law in June.

Judge Ellison's circuit will be composed of Nodaway, Atchison, Worth and Gentry counties.

The June term of circuit court will be held in Nodaway county, as the bill will not become a law until after that term of court is commenced. However, there will be a term of circuit court in September under the new law. The other terms will be in February and May.

FELL FROM SOME PLANET?

A Huge Rock Discovered on Fleming Farm, Probably Had Fallen from the Heavens.

While walking over his farm north of Hopkins the other day, S. A. Fleming discovered a huge rock that was partially buried in the ground, and upon further investigation, found that the miniature boulder had fallen from the heavens as its path could be traced by the limbs of a tree through which it had fallen and injured the branches, says the Journal.

The rock weighed about twenty pounds and is of an entirely different formation of any rock found in this immediate vicinity or in this country, for that matter, which leads Mr. Fleming to believe that it fell direct from some other planet. The rock, too, was evidently hot when it fell, as it was broken into five different pieces when found, the breaks no doubt being caused by the stone rapidly cooling when it struck the damp soil of Pious Ridge.

JUNE FIRST FIXED AS DATE OF RETIREMENT.

DID BOSS SEE MAJOR?

Two Newly Elected Justices Resign and After Trip to St. Joseph J. W. Morris Says He Will Also.

The county court seems to have a hard time about justices of the peace of Polk township and especially to prevent "Boss" J. W. Morris from having that office. On Thursday, two justices of peace of this township, who had qualified and received their commissions, presented their resignation to the county court to take effect at once. They were J. E. Melvin and Gill Campbell.

The first of the week, the court appointed John S. Miller of "Ohio" to take the place made vacant by Amos Sprecher, who declined to qualify as justice of peace, being elected at the township election. At that time the court thought that everything was settled so far as justices of peace of Polk and so far as "Boss" Morris was concerned, but now there are two more vacancies to fill.

So far as the court is concerned now, they will not appoint "Boss" Morris to that office, but unless the two vacancies are filled, it is the opinion of many that Morris will hold that office. It is intimated that Morris will refuse to give out the books of his office even if all of the vacancies are filled.

"Boss" Morris was in St. Joseph Wednesday, he having heard that Governor Major was to be in that city. But the governor didn't show up.

Many people are in favor of Mr. Morris holding the justice of peace office, as no one seems to want that office.

"Boss" Morris returned Thursday noon from St. Joseph and in talking to several of his friends, said he would resign as justice of peace about June 1 so far as he knows at the present time. It is intimated that Mr. Morris will probably go to St. Joseph.

GEORGE R. CARTER.

Ex-Governor of Hawaii Says Free Sugar Will Kill That Country.

Mr. Carter in a pessimistic address to the merchants of Honolulu declared that the free sugar provision in the new tariff bill, if carried into effect, will prove the death blow of Hawaii within three years. He said that sugar provides 85 per cent of the money expended by the local government and educates 2,000 children.

WAS MUCH TAXED

BOTH HOLT AND NODAWAY COUNTIES ASSESSED HIM.

THE RIVER THE CAUSE

Erratic Wandering of the Nodaway Caused John McDowell to Pay Double Taxes on Real Estate.

John McDowell, living near Graham, has been paying for a few years taxes in Nodaway and Holt counties on the same piece of land, containing five and a half acres. Thursday, County Treasurer Tilson and the members of the county court received word about this matter from Mr. McDowell, who wants his assessment taken off of the tax books of Nodaway.

Mr. McDowell in writing about it, says that when he purchased the land, the five and one-half acres, according to the original survey, was in Nodaway county. He paid his taxes to Nodaway county in 1904-05-06-07, but in 1908, a suit was instituted against him in Holt county for taxes for those years on the five and a half acres. Holt won in that suit, so he paid his taxes for those years to that county. Since the time of the suit, he has been paying his taxes to Holt. Now Mr. McDowell wants to know whether he will have to pay taxes to this county. He says that it doesn't seem right to pay taxes to two counties on the same piece of land. The county court will investigate the matter.

The change in the land from Nodaway to Holt county was made by the change of the Nodaway river, which is the line between the two counties.

MORE P. M. CIVIL SERVICE.

Second and Third Class Postmasters to Be Included, According to Dispatch from Capitol.

Postmaster General Burleson at Washington announced Wednesday that it was the purpose of President Wilson and himself to take into the classified service, probably this year, all postmasters of the second and third classes. Fourth class officers already have been covered by executive order.

After a conference with President Wilson, Postmaster General Burleson announced that an executive order would be issued requiring that all fourth class postmasters now in office, or candidates for prospective appointment should be subjected to a competitive examination to determine their fitness for the office.

The Postmaster General issued a statement explaining the purpose of the new executive order, declaring that President Taft's action in placing "a great horde of persons" in the classified service was not in conformity with the spirit of the civil service, as there were no tests to determine the merits of the applicants.

The new order, which substantially amends President Taft's executive order, retains in the classified service all fourth class postmasters, but specifically requires a competitive examination and a selection by postoffice inspectors from among the first three eligible applicants. The order places the age limit for appointees at 65 years.

Mr. Burleson, in his discussion of the situation, indicates that the Wilson administration desires to take the fourth class postmasters out of politics, but points out that Democrats as well as Republicans will have an opportunity under competitive examinations to show fitness.

A Pup With Two Bodies, Eight Feet and Legs and One Head on Exhibition at Hopkins.

Fred Herbert has in alcohol at the Bowman drug store in Hopkins a pup with two bodies, eight feet and legs, and one head, brought to the store by Dr. Al Reeder from the Walter Trumbo farm. The pup lived for several hours after it was born and is certainly quite a curiosity.—Hopkins Journal.

The Kicker.

When Bill was born the first thing he did
Was to kick; and Bill never entirely
got rid
Of that trait—all the time that Bill
was a kid
He kicked about things.

He kicked for the love of it; kicked
with a will;
He kicked with precision and con-
summate skill;
Whenever a creditor mailed him a bill,
William would kick.

He kicked when improvements came
to the place,
With mulish enjoyment and asinine
grace—
He loved to hit progress a kick in the
face;

He'd his heart in the work.

At last the community wearied of him;
Tied a rope round his neck, threw it
over a limb,
And hoisted him up with vigor and
vim;
And, as usual, Bill kicked.

St. Peter regarded Bill's ghost with
a frown;
"That way, if you please—take the car
going down!
If I did let you in and give you a crown
And a robe and a harp and a nice pair
of wings,
Inside of a week, you'd kick about
things."

And William, he kicked.

THE STEINHAUSER FUNERAL.

Services Held Thursday Morning at
New Engelberg Abbey Church—
Was the Mother of Eleven.

Funeral services for Mrs. William
Steinhauser, who died Monday night
at her home six and one-half miles
southeast of Clyde, were held Thurs-
day morning at 10:30 o'clock at New
Engelberg Abbey church, Conception,
conducted by the Rev. Father Placidus.
Burial took place in St. Columba's
cemetery. The pall bearers were Leo
King, Roy King, James Brady, Clem
Meyer, William Merrigan and John
Allen.

Mrs. Steinhauser's maiden name was
Mary Bloomeke, daughter of John and
Elizabeth Bloomeke, and she was 38
years old at the time of her death.
Her father came to Nodaway county
from Ohio when she was a babe, to
start a home for his wife and child,
who were to follow him at a certain
time. Mr. Bloomeke had been serious-
ly injured by a circular saw some time
previous to this and it was thought
that the trip west would benefit him.
He made the trip on horseback and the
constant jar of the ride opened
his wound afresh and by the time he
reached the vicinity of Conception,
where he and other friends had come
to invest in land, he was in a danger-
ous condition and died soon after he
reached his destination.

Telegraph and mail service were so
slow then that word could not be
sent the young mother before she
started with her baby to join her hus-
band and when she reached Concep-
tion the news of her husband's death
waited her. She returned to Ohio and
was later married to George Kimmitt,
who soon came to Nodaway county
and located in Conception vicinity,
where Mary Bloomeke grew to woman-
hood and was married November 4,
1891, to William Steinhauser.

Mrs. Steinhauser was the mother of
eleven children, eight of whom sur-
vive with their father. They are Mar-
garet, Anthony J., Michael W., William
J., Stephenie M., Marie E., Leonard G.
and Agatha.

Sorority Girl's Announcement.

The Sigma Delta Chi sorority met
Wednesday evening with Mrs. Fred
Lewis, formerly Miss Estella Mason,
the sorority's most recent bride, at her
home on East Fourth street. After
the usual business session a charm-
ingly delightful social season was pre-
cipitated by the reading of a letter re-
ceived that day by the hostess from
Miss Emma Kildow, who is at Tuscon,
Ariz., for a few months. Mrs. Lewis
asked Miss Mary Ogden to read the
letter to her guests while she attended
to preparations for luncheon. And the
extraordinary news the letter contain-
ed was what "started everything," al-
though every girl there had been al-
most hourly expecting it for months,
but when it did come, it was just as
thrilling and surprising as though they
had not known a thing about it, be-
cause of the manner of its coming.
They thought the hostess might have
something of interest to tell them
some time soon, but they had no idea
that it would come out in a letter from
far away, about one of their girls at
home, so when Miss Kildow wrote that
a member of their own sorority was
to be married the last of May to
Harvey Neal Meacham of San Bernar-
dino, Calif.—why, everybody was sur-
prised and the news furnished
entertainment for the rest of the eve-
ning and the bride-to-be received the
happiest wishes from everyone, for
she is one of the favorite members.
The members present were Miss
Stockton, Misses Jeanetta Cottrill,
Jane Hinote, Phyllis Saylor, Mary Og-
den, Golda Airy, Lois Halley, Grace
Langan, Hettie Anthony, LaRue Kemp,
Margaret McDougall, Alice Fickland,
Bess Porter, Ella Richards, Julia
Ward, Jessie Mutz, Nellie Hudson,
Dora Day, Mrs. Emmett Scott and the
hostess.

Playgrounds for Maitland.

At the last meeting of the Maitland
city council Mrs. George McNaull and
Mrs. Frank Bloyer, representing the
Civic League of that town, asked the
co-operation of the town in establish-
ing playgrounds at various points. The
league has arranged with D. Ward
King for the use of a block of several
lots on the north side and are taking
steps to obtain other grounds. The
council promised to assist and there is
certainty that the improvement will be
accomplished.

Position of Advantage.

(From The Washington Star).
"How do you come to be sent to
Congress?" said the inquisitive person.
"Well," replied Senator Sorghum,
"some of my most influential constitu-
ents concluded I could do better work
for them on the floor than I could as
a regular lobbyist."

Timely Caution.

(From The Kansas City Journal).
"Loan me five, old man, if I live un-
til next week I'll pay you back."
"Here it is. But if you fail to sur-
vive the time limit, don't try to stick
me for the funeral expenses."

FREE TRIP TO PANAMA.

Contest Inaugurated for the Best Suggestions for a Memorial to Opening of the Canal.

Washington, D. C., May 5.—A unique contest was today inaugurated by the Southern Commercial Congress, which offers fifteen free trips to the Panama canal for the best suggestions for a memorial to commemorate the opening of the canal. The announcement was made today by Senator Duncan U. Fletcher of Florida, president of the congress.

The congress believes the completion of the canal should be marked by some suitable memorial, and the contest will arouse interest in the study of the trade relations of the canal to the United States, Latin America and the world.

The memorial can take any form, a statue, an international celebration, a book, a convention—anything that the jury of award decides is the best suggestion to commemorate the completion of the canal.

Secretary of State Bryan and John Barrett, director general of the Pan-American Union, with others to be selected by themselves, will constitute the jury of award. They will decide the fifteen best suggestions.

The trips to the canal will be made in October next, from Mobile, Alabama, where the fifth annual convention of the Southern Commercial Congress will be held, coincident with the opening of the canal. At this convention the American Commission of the congress, which sailed April 26th for a three months' tour of fourteen European countries to study agricultural co-operation and co-operative rural banking, will make a report of its investigations.

Great preparations are now being made at Mobile for the convention. Many of the 10,000 delegates who will attend the convention will make trips to the canal. After the convention the Southern Commercial Congress will conduct a tour of several hundred business men through South and Central American countries to study at first hand new trade conditions and possibilities that will come with the opening of the canal.

The contest is open to any newspaper, chamber of commerce, board of trade, commercial organization, college or high school, or individual. Each suggestion for the memorial should, if possible, be printed in some newspaper and a copy of the newspaper containing the suggestion must accompany the letter of each contestant. Each suggestion must be limited to one hundred words. The contest closes July 15. The awards will be announced within thirty days thereafter. All suggestions should be addressed to "Contest Department," Southern Commercial Congress, Southern Building, Washington, D. C.

POSTMASTERS MUST PASS EXAMINATIONS

President Orders Civil Service
Test for Fifty Thousand Natsbys.

Washington, May 8.—All fourth class postoffices, except those paying less than \$180 a year, were thrown open to competitive examination by an executive order issued by President Wilson. These positions are retained in the classified service, but about 50,000 incumbents, who were "covered" into the classified service by executive orders of previous administrations will have to meet all comers in competitive examinations in order to hold their positions with civil service protection.

In a statement making this order public, Postmaster General Burleson announced that it was the purpose of President Wilson and himself to extend the classified service to include presidential postmasters of the second and third class, probably within a year. This may require legislation by congress, he said.

His plan, which will be laid before the president soon, will provide for qualification test for incumbents and applicants "in keeping with the importance of the offices."

Miss Helen Shipps returned to her home in Arkoe Wednesday evening from a week's visit with her grandparents, Mr. and Mrs. L. F. Van Briggie.

CHARGES WASTE AGAINST ROADS

Meilen Scored by Brandeis Before Interstate Commission.

DIVIDENDS EXCEED EARNINGS.

Boston and Maine and New Haven and Hartford Officials Accused of Suppressing Competition at a "Fearful Cost"—Methods and Policies Dark.

Washington, May 8.—Charges of maladministration, reckless extravagance and undue expansion, induced by a spirit of monopolization and aggrandizement, were made before the interstate commerce commission by Louis D. Brandeis of Boston against the officials of the New York, New Haven and Hartford and the Boston and Maine railroads.

The charges were made in the course of oral arguments submitted to the commission on testimony adduced at the operations of the New England railroads recently taken in Boston. Mr. Brandeis said both had suppressed competition at a "fearful cost."

Dividends Exceed Earnings.

"For five out of the last six years the New Haven has been paying in dividends more than it has earned," said he. "It has pursued a policy of concealing from the stockholders and from the public the character of its methods and policies. The Boston and Maine has outstanding \$24,500,000 of short term notes which in natural course it will have to meet during the coming year, and yet it is about to pass its dividend, and it is doubtful whether it can meet its fixed charges. The New Haven's affairs are managed in the same reckless fashion. It has notes to meet within the next eight months amounting to between \$40,000,000 and \$50,000,000. Such management would be condemned in a wild cat mining scheme. Its management has been characterized by reckless excess that is appalling."

Replies to Criticism.

The criticism of Mr. Brandeis was met by statements of Charles F. Choate, Jr., personal counsel of President Charles S. Melien of the New Haven, who, while admitting that large prices had been paid for some of the properties constituting the New Haven system, declared the action of the directors already had been justified fully in some instances, and he was certain would be justified in all by time. Expensive improvements, he said, had been made by the roads to meet the demands of the public.

PEABODY FAVORS INCOME TAX

Says, However, That \$4,000 Limit Is Entirely Too High.

Omaha, May 8.—Charles A. Peabody, a director of the Union Pacific railway and several large financial institutions in New York, took a stand in favor of the income tax, although he would impose it equally, in an interview he gave to the press.

Mr. Peabody has been on a trip to the Pacific coast and was met here and motored about the city by President Mohler.

"I do not object to an income tax," said Mr. Peabody. "On the other hand I believe an income tax is right and just and should be imposed. But it should be imposed on all alike. A tax imposed upon a man simply because he is rich, but which is not imposed upon another who is not so well off, is obviously unjust."

"The provisions of the income tax bill now before congress places the tax altogether upon those with an income of \$4,000 or more. That limit necessarily puts the tax on a very few as compared with the entire population of the country. It will be paid very largely by the people of the east."

"A tax which is levied upon a single section is not right. It should be levied upon the country as a whole. I believe, of course, there should be a proper limit, because I would not tax the income of a laborer, nor the salary of men who receive a small wage. A \$4,000 limit is entirely too high."

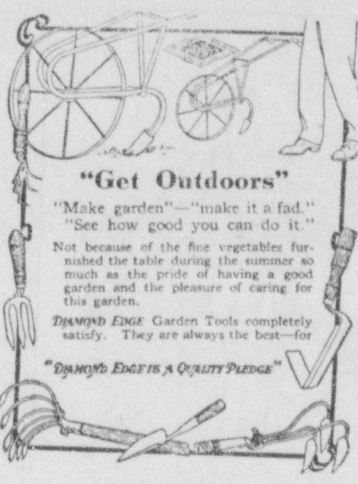

SAYS STEEL COMBINE RUINED JOB PRINTER.

Washington, May 8.—Representative Stanley, chairman of the house committee which investigated the steel trust, urged President Wilson to appoint to a federal position B. S. Kaufman of Coatesville, Pa., a job printer whom Mr. Stanley declared had been ruined because he testified against the steel interests before the committee. Kaufman at the time told the committee he feared retaliation.

Fatal Quarrel Over Baseball.

Wellington, Kan., May 8.—William Lone Wolf, a graduate of Carlisle, is in jail here, charged with having shot and mortally wounded George Cowen, a neighbor. They previously had quarreled over a baseball game. Lone Wolf is wealthy. He denies the shooting.

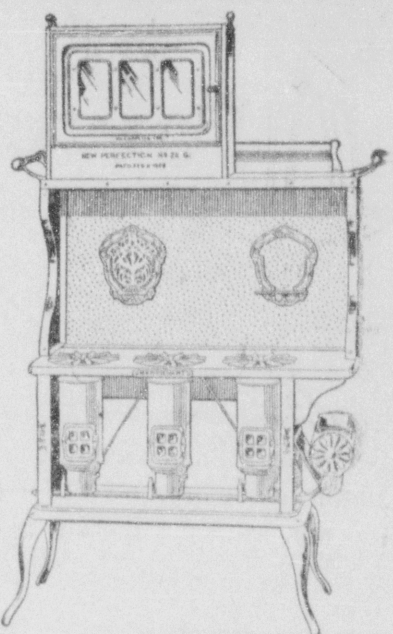

Wilson Names Collector of Port.

REPUBLICANS HOLD UP TARIFF MEASURE

Final Vote Delayed for Day by Parliamentary Maneuver.

Washington, May 8.—After all of the fireworks, preparatory to the passage of the Underwood bill in the house, had been set off, a Republican parliamentary maneuver blocked progress by the Democratic majority and the house was forced to adjourn with the bill still pending.

When the valedictory speeches on the bill had been delivered and crowded floor and galleries were prepared for the final action, Republican leader Mann replied to Majority Leader Underwood's opposition to a roll call on the Republican amendment proposing a tariff commission, by declaring he would demand the reading of the "enrolled bill."

It was impossible for the enrolling clerk to complete the enrollment of the bill before this afternoon and amid the dissatisfied mutterings of the members, who had waited through the evening in the expectation of a final vote, Representative Underwood moved that the house adjourn until afternoon, when the vote will be taken. In the closing hours of the session, the ways and means committee amended the income tax section of the bill so as to exempt from its provisions the citizens of Porto Rico and the Philippines.

Party leaders primed for a final political thrust of the tariff debate, hurled their defiance across the chamber on belated amendments, with alternating currents of applause reverberating through the house, the packed galleries frequently joining in the demonstration.

WAR AEROPLANE IS MISSING

American Troops Hunt for Lost Mexican Flying Machine.

FOR USE IN GUAYMAS SIEGE.

Birdmen to Drop High Explosives on Heads of Government Soldiers, Believed to Be Rebel Scheme—Taken in Wagon From Desert Station.

Nogales, Ariz., May 8.—A war aeroplane, designed to assist the Sonora state troops investing Guaymas, is being sought by three detachments of United States cavalry and automobile parties of deputy sheriffs and federal officers. The machine was lost in transit between Tucson, Ariz., and this point, where its passage into Mexico was denied. Still another flying machine is reported smuggled over the border, arriving safely at Ortiz, the base of the state troops operating against the California gulf port.

Shipped From Los Angeles.

The missing aeroplane was shipped from Los Angeles to a desert station twenty miles south of Tucson, where it was delivered to unidentified persons and taken away in a wagon. Since then the military and deputy sheriffs have been unable to locate it.

It is reported that the intention was to fly over the border, the American aviators and mechanics having been already on the ground when the machine arrived. How the second machine was smuggled over is not known.

Planned for Dropping Shells.

It was planned to employ the aeroplanes in besieging Guaymas, where strong federal reinforcements were received last week. It is said that high explosive shells have been secured, which the birdmen could drop over the heads of the government troops. Fighting between Guaymas and Ortiz was not resumed, according to current reports. A strict censorship is being enforced by the state authorities.

BOMB FOUND IN ST. PAUL'S

Suffragettes Try to Blow Up Ancient Cathedral in London.

London, May 8.—An attempt to wreck the ancient St. Paul's cathedral by a bomb is attributed to the militant suffragettes. The verger, who conducts sightseers through the massive edifice, was making his rounds when he heard a ticking sound near the high altar. Upon investigation he found hidden a heavy parcel, done up in brown paper. He immediately placed it in a wagon and handed it over to the police, who found a suffragette newspaper wrapped up with the bomb.

This attempt and the placing of two other bombs in other parts of the city made it appear that the militant suffragettes had entered anew on their havoc-working campaign, following the defeat of the woman suffrage bill in the house of commons.

FIRE ALARM BRINGS GUESTS TO WEDDING.

Chicago, May 8.—Truckman William Werner turned in an alarm to enable members of truck company No. 19 to attend his wedding. His companions could not all be relieved of duty to become his guests, so when everything was ready for the ceremony, Werner pulled a box. When the apparatus arrived, Werner explained that the "fire was in his heart," and ushered the firemen into the home of the bride, rubber boots, mackinaws, helmets and all. Half an hour later they were back at the fire station.

Kansans Plan Sociability Tour.

Kansas City, May 8.—A "sociability" tour of motorists, under the auspices of the Kansas State Automobile association, will begin from Kansas City, Kan., tomorrow morning to encourage improvement of the roads along the new Kansas City-Omaha route, said to be one of the most picturesque highways in the Missouri valley. The motorists will stop at fifteen towns, where speeches in support of good roads will be made. They are scheduled to arrive at Omaha, Saturday afternoon.

Man Wounded in Duel Near Paris.

Paris, May 8.—A sword duel, arising out of a quarrel three years ago, was fought between H. C. Berger, son of a Paris deputy, and Georges Breittmayer, both noted fencers. They met on the lawn of the Chateau d'Orly, about seven miles south of Paris. Berger received a serious wound in the right breast.

Irish Home Rule Bill Reintroduced.

London, May 8.—The home rule for Ireland bill was reintroduced in the house of commons by Premier Asquith and read a first time under the standing order of the house, which debars debate. It will come up for second reading on June 25.

Refuses to Grant Raised Rates.

Washington, May 8.—The interstate commerce commission held that proposed advances in freight rates on flax tow and excelsior from St. Paul to Des Moines, Omaha, Kansas City and other points were not justified.

THIS LADY'S GOOD APPETITE

Mrs. Hansen, in a Letter From Mobile, Tells How She Gained It.

Mobile, Ala.—"I suffered for seven years, with womanly trouble," writes Mrs. Sigurd Hansen in a letter from this city. "I felt weak and always had a headache and was always going to the doctor. At last I was operated on, and felt better, but soon I had the same trouble."

My husband asked me to try Cardui. I felt better after the first bottle, and now, I have a good appetite and sleep well. I feel fine, and the doctor tells me I am looking better than he ever saw me."

If you are sick and miserable, and suffer from any of the pains due to womanly trouble—try Cardui. Cardui is successful because it is composed of ingredients that have been found to act curatively on the womanly constitution.

For more than fifty years, it has been used by women of all ages, with great success. Try it. Your druggist sells it.

N. B.—Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment of Women," sent in plain wrapper, on request.
